ABOUT US

Our family owns spice business since 1921, we fall among the oldest contenders in this field. This itself is a proof that our quality products are being appreciated by our valuable customers from ages.

Our experience and consistency help us move towards the verge of excellence. We not only supply spices, but also carry all the knowledge about our products. Which enable us to provide the best of service and products.

Since its establishment, this journey of excellence has grown stronger. Generations have passed by, where each and every day we assure to deliver our persistent efforts in providing the finest quality products to our customers.

We supply wide range of spices to areas of food industry and the end consumer to desired specification. Our qualified team of personnel is exclusively assigned for quality control setup. We have well equipped plant with sophisticated processing facility to meet exact need of our customers.

Situated in UNJHA and RAJKOT - middle of extensive spice cultivating region of Cumin, Fennel, Coriander, Fenugreek, Ajwain, Dill and Sesame seeds, which enable us to procure the best of breed raw material.

QUALITY

Effective quality management is of vital concern within the food industry, therefore, we have a comprehensive Quality Management System in place which exceeds the requirements of our customers.

Adoption of new technology like automatic cleaning and sorting system with aspiration channel & metal separator which enable us to achieve up to 99.9% purity in whole seeds. Plant and products complying with FSSAI, BRC & FDA standards.

- All products processed, sterilized, grinded and packed in our own facility.
- Highest quality standards and product deliverance on time.
- A long term assurance to excellence, both in products and service.
- Careful monitoring of all process to assure only best products are supplied.
- Dedicated staff and state of the art facilities.
- In-house grindings and sterilization facilities.
- Our warehouses consists of separate area for Raw Material and Finished Goods to ensure that there is no cross contamination with the finished goods.

VISION

The company's continual growth is testimony of our capability and commitment to adapt to the needs of an ever changing world. To Challenge & Push the boundaries of Traditional Business by merging

- Advanced Technology
- New Ideas and Environmentally Sustainable Solutions in Farming, Processing and Quality.

MISSION

Our mission is to be a Customer Centric, Environmentally Friendly and sustainable Enterprise who is able to deliver TRUE VALUE throughout the supply chain.
